VIOR INC. (VIO-V)

Vior announces an Exploration Agreement with Long Point First Nations, Abitibi-Témiscamingue, Québec.

On May 20, 2025, Vior announced that it has entered into an Exploration Agreement with Long Point First Nation (LPFN) for the Belleterre Gold Project in Québec's Belleterre Greenstone Belt. The Long Point First Nation ("LPFN") is a vibrant and resilient community with a rich cultural heritage rooted in the Anicinabe traditions located ~100 km east of Ville-Marie, on the south shore of the Winneway River near Lac Simard in the eastern part Abitibi-Temiscamingue, Québec (https://longpointfirstnation.com/). The Belleterre Gold Project is located to the south in Abitibi-Temiscamingue region, on LPFN traditional lands. Recall on May 15, 2025, Vior had provided update on exploration activities at its Belleterre Gold Project from its +60,000-metre drill program that is investigating extensions of the historic Belleterre gold mine and regional targets. Following rounds of consultations and presentations, Vior received from LPFN a letter of endorsement confirming its approval for the next round of drilling that shall be conducted during the summer and fall campaign. Vior shall shortly submit the permit (ATI) request with the provincial government. The ATI (Autorisation de Travaux d'Exploration à Impact) is a permit required for certain mining exploration activities and strives to ensure transparency and address concerns from local municipalities and Indigenous communities regarding mineral exploration (https://www.fasken.com/en/knowledge/2024/05/impact-causing-exploration-work-do-you-need-an-ati).

Establishing a framework for long-term relationship: The Long Point First Nation Agreement outlines the terms on how consultation and impact mitigation on exploration activities shall be conducted. It also provides for financial benefits and contract, jobs and training opportunities during the exploration phase of the project.
Vior and the Long Point First Nation are planning to hold an official signing ceremony in the community of Long Point to celebrate this important milestone in the fostering of their long-term mutual relationship. Details about this ceremony shall be communicated later.

Mathieu Savard, President & CEO of Vior commented: "*Vior is proud to be part of this historic moment that shows that when we work together towards a common objective, there is no limit to what can be accomplished. I also would like to thank LPFN Chief and Council, the negotiating committee, members of the LPFN sustainable development department, the Long Point First nation members and Vior's Team for the dedicated effort while building this agreement and relationship*".
